*All newborn sessions are done in the client's home or on location, not in a studio.
I shoot using natural light (daylight) and only use studio light as a back-up when necessary.*

When choosing your location, please consider that the space will need to have access to windows and/or natural daylight.

I will always do my best to accommodate all situations, so please do not stress!

If you have any questions or concerns, please feel free to contact me.

All newborn packages are subject to Missouri sales tax.
Travel beyond an hour will incur a fee.
